**ACADEMIC SKILL ATTAINMENT**

Academic Attainment has been based on the number of concentrators that score above the 50th percentile on the Stanford Achievement Test-9 (SAT 9). However, the concentrators for 2004-05 were the last students to take the SAT 9 during their sophomore year in high school. Also, the end-of-level assessments in Literacy, Algebra, and Geometry will be used in the future for this measure. Although the Department did report Academic Attainment to the U.S. Department of Education, individual school districts will not be held responsible on the District Status Report this year. Next year, Academic Attainment will be based on the number of concentrators scoring Proficient or Advanced on the end-of-level assessments.

**VOCATIONAL TECHNICAL SKILL ATTAINMENT**

Vocational Technical Skill Attainment is based on the average scores in the Vocational Student Competency Testing program for all students tested at the end of a course.

State benchmark	80%
-----------------	-----

**Center rating:    No assessment available**

## **GRADUATION**

The graduation rate for concentrators is based on the number of students identified as concentrators at the beginning of their senior year compared with the number of those who graduate.

Percent graduated	97%
State benchmark	90%

**Center rating: Significantly above benchmark**  
**Meets or exceeds state average of 90%**

## **COMPLETERS OF PROGRAMS OF STUDY**

A completer is a graduate who successfully completed three or more units of credit within a program of study, including all the core requirements for that program of study. There are two measures for this indicator. One is the number of completers compared with the number of graduates. However, since students do not graduate from the secondary vocational center, this measure is not applicable to centers. The other measure is the number of seniors enrolled in career and technical classes compared with the number of completers. This measure can be applied to the secondary centers.

Number of completers compared with number of seniors	54%
State benchmark	50%

**Center rating: Meets or exceeds benchmark**  
**Meets or exceeds state average of 37%**

Total number of completers of programs of study	174
Automotive Collision	28
Computer Engineering	10
Construction Technology	11
Cosmetology	31
Drafting and Design	13
Medical Professions Education	78
Welding	3

## **PLACEMENT**

Placement is based on the status of completers six months following graduation. Completers who pursued opportunities in postsecondary education, the workforce, and/or the military are considered positive placements.

Completers reported in 2003-04	127
Percent positive placement	97%
State benchmark	98%

**Center rating: Approaching benchmark**  
**Meets or exceeds state average of 95%**
